## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Charles A. Leyes on 9/29/2010.

Regarding claim 29:

Line 10, replace "a mixer" with **---a summer---**.

### ***Allowable Subject Matter***

2. Claims 1, 3-5, 8, 10-12, 15-18, and 25-32 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding independent claims 1, 8, 15, 17, 18, and 29:

The present invention describes a method and an apparatus comprising generating a residual signal from a multicarrier signal, the residual signal representing a difference between the multicarrier signal and a hard-clipped multicarrier signal; applying a least squares function to the residual signal for at least one carrier of the multicarrier signal, thereby generating a minimized residual signal for each of the at

least one carrier; filtering the minimized residual signals; and combining the filtered minimized residual signals and the multicarrier signal. The closest prior art, Barak et al. (US 2004/0076247 A10 in view of Abdallah et al. (US 6,308,562 B1) together disclose a similar method and apparatus but fail to disclose applying a least squares function to the residual signal for at least one carrier of the multicarrier signal, thereby generating a minimized residual signal for each of the at least one carrier; filtering the minimized residual signals; and combining the filtered minimized residual signals and the multicarrier signal. This distinct feature has been added to the independent claims 1, 8, 15, 17, 18, and 29, thus rendering claims 1, 3-5, 8, 10-12, 15-18, and 25-32 allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SIU M. LEE whose telephone number is (571)270-1083. The examiner can normally be reached on Mon-Fri, 7:30-4:00 with every other Friday off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chieh Fan can be reached on (571) 272-3042. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
